TRANSMITTAL OF ACCEPTANCE DATE FOR TREATMENT OF OPERABLE UNIT NUMBER 7
(OU-7) SEEP WATER - LJP-002-95

Action: None required.

In response to your December 16, 1994 memorandum, OU-7 has received written verification that the OU-7 seep water can be treated at an onsite facility.

Attached please find correspondence from EG&G Environmental Operations Management accepting the OU-7 seep water for treatment at OU-1 with additional pretreatment. Treatment capability will be available June 30, 1995, which supports the current baseline schedule.

Thank you for your cooperation; if you have any questions regarding this transmittal, please contact me at extension 8553.

ADMIN RECORD

INTEROFFICE CORRESPONDENCE

DATE: January 6, 1995

TO: L. J. Peterson-Wright, OU-7 Project Manager, Bldg. 080, X8553

FROM: *meb* M. T. Vess, Environmental Operations Management, Bldg. T891B, X6540

SUBJECT: OPERABLE UNIT NUMBER 7 (OU-7) SEEP WATER COLLECTION SUPPORT
AND ACCEPTANCE DATE - MTV-001-95

DOE Order: 4700.1

Action: None required.

The Sitewide Treatment Facility will be capable of accepting and treating OU-7 seep water beginning June 30, 1995. The present OU-1 Building 891 system will be temporarily modified to include an iron removal system. The iron removal system will enable the existing OU-1 equipment to treat the water until the OU-2 chemical precipitation /microfiltration unit is operational.

Environmental Operations Management (EOM) will provide operations management, operations and maintenance labor, sampling support, trucking coordination, and technical support beginning June 30, 1995. OU-7 will be responsible for providing the funding for activities related to collection, transportation, sampling, maintenance, and management of the project. Utilization of existing project management, technical support, and subcontracts being used for support of OU-1 and OU-2 will reduce the funding requirements for treatment of the OU-7 water.

The Proposed Performance Standards referenced in the OU-7 Proposed Action Memorandum (PAM) will be used as treatment standards for the water, and it is EOM's understanding the PAM authorizes use of this facility and no further permitting is required.

Please feel free to contact me at the above extension if you have any questions.
